

## Department Intent

Our intent is that the **Computing** curriculum:

	<ul style="list-style-type: none"> <li>• creates opportunities to develop key subject knowledge, understanding and skills related to computational and business key concepts.</li> <li>• provides an appropriate range of opportunities to interpret the requirements of specific tasks, identify differing audiences, and use the information to plan for a successful outcome.</li> <li>• refers to how the knowledge, understanding and skills of computing could be applied to future academic or career decisions.</li> </ul>
	<ul style="list-style-type: none"> <li>• presents opportunities to apply knowledge, understanding and skills to varying contexts.</li> <li>• enables critical analysis and evaluation.</li> <li>• provides opportunities to form reasoned judgements and conclusions based on sound evaluation of information.</li> </ul>
	<ul style="list-style-type: none"> <li>• takes advantage of the practical use of technology.</li> <li>• encourages imaginative solutions to problems.</li> <li>• unites learning with leisure pastimes.</li> <li>• ensures that all students are safe and understand how to stay safe.</li> </ul>
